Public Transportation is available through Utah Transit Authority light rail (UTA/TRAX) from downtown and transfer to a UTA Ski Bus to take you to Snowbird. Please see the Bell Stand located in the lobby for more information.

Be prepared to make transfers and pay close attention to bus schedules associated with going up and down the canyon. This is convenient, very affordable and the rail cars and buses are remarkably clean. Ski buses have different daily weekday and weekend schedules. They start at 6:53 a.m., stop around the city and at 10 different hotels. Plan for about an hour total travel time. If you want to get to the resorts early, you can call a cab to take you to the ski bus stop. You can ride the Utah Transit Authority ski buses for \$4.50 each way from the park-and-ride at the canyon's mouth to any of the Cottonwood Canyon resorts (exact fare is required).
